EDUCATION

CUT

(Central University of Technology)

B.TECH - IT: SOFTWARE

Jan 2019 – Aug 2020 | Bloemfontein
| Free State

CUT

(Central University of Technology)

N.DIP - IT: SOFTWARE

Jan 2016 – Dec 2018 | Bloemfontein
| Free State

SKILLS

COMPETENCIES

Web Application Development
Software Development
Database Administration
CSV Data Processing
Computer Troubleshooting

SOFTWARE

IDEs:

Ms Visual Studio • VS Code
• PyCharm • IntelliJ • Postman

Languages:

C# • Java • JS • Python • SQL

Frameworks & Technologies:

ASP.NET MVC • Springboot(beginner)
• Pandas • Bootstrap • Docker

Databases:

MS SQL • MySQL • Access

Tools:

GitHub

INDUSTRY EXPERIENCE

CITY OF JOHANNESBURG | DEVELOPER & DATA ANALYST INTERN

Jan 2024 – Jun 2025 | Contract | Johannesburg

- Assisted in developing and maintaining ASP.NET MVC web applications
- Worked with SQL databases for data querying, reporting, and analysis.
- Participated in IT project development and data analysis initiatives.
- Supported backend functionality and database-driven processes.
- Collaborated with team members to improve application performance and usability.

NEMISA | WEB DEVELOPMENT INTERN

May 2022 – Dec 2023 | Contract | Johannesburg

- Created functional flow diagrams to improve project planning and development processes.
- Improved website navigation and user experience through interface enhancements.
- Assisted with front-end web design and implementation.

PROJECTS

LOAN APP

- Developed a web application that evaluates user credit information and suggests loan options
- Implemented loan eligibility logic and dynamic loan recommendation functionality.
- Built using ASP.NET MVC, C#, SQL Server, HTML, CSS, and Bootstrap.
- <https://homeloansapp.runasp.net/>

SALES APPLICATION

- Developed an ASP.NET MVC application for importing and processing transaction records.
- Implemented data summarization and reporting features for business analysis.
- Generated monthly report tables in the database whose data could be viewed via the application

SEARCH AND READ

- Built a document search application for locating and reading stored files.
- Implemented folder search functionality and document retrieval processes
- Developed using ASP.NET MVC and SQL database integration.

COURSEWORK

B.TECH

(Bachelor of Technology)

Database Systems IV
Research Methodology
IT Management
Advanced Development Software IV
Computer Architecture IV
Software Engineering IV
User Interfaces IV
Development Software IV
Computer Security IV
Operating Systems IV

N.DIP

(National Diploma)

Development Software III
IT Mathematics I
English Proficiency
IT Skills
Information Systems III
Personal Information Management
Systems Software II
Technical Programming II

LANGUAGES

IsiXhosa	Mother tongue
English	Fully Fluent
Afrikaans	Beginner

HOBBIES

Reading
Skateboarding
Language Learning (Duolingo)
Chess Learning (Duolingo)

PROJECTS (CONTINUED)

ACCOUNT FINDER

- Created an ASP.NET MVC application for searching customer accounts using database queries.
- Enabled accurate account retrieval through primary key matching and filtering.

COMPARING NAMES

- Developed a name comparison utility using string similarity algorithms.
- Implemented percentage-based similarity matching between two names
- Used C# algorithms to improve comparison accuracy.

CRIMINAL RECORDING APPLICATION

- Developed web application that captures suspects and criminal offenses committed by suspects
- Implemented an auto allocation of case managers, after suspects criminal offenses have been determined (this includes type of offense, N.O jail yrs etc)
- Built using ASP.NET MVC, C#, SQL Server, HTML, CSS, and Bootstrap
- <https://criminaloffencecapturer.runasp.net/>

RESOURCE BOOKING APPLICATION

- Developed web application that manages shared resources such as meeting rooms, vehicles, and equipment.
- Implemented a real time scheduling system that enables users to check availability, book resources at specific time slots, reservations, addition of resources(admins only)
- Built using ASP.NET MVC, C#, SQL Server, HTML, CSS, and Bootstrap.
- <https://internalbooker.runasp.net/>
