

MONDE NELANI

JUNIOR SOFTWARE DEVELOPER

SUMMARY

I am an enthusiastic self-starter with a strong foundation in IT and software development, particularly adept in using ASP.NET MVC framework for innovative solutions. With a solid academic background in Information Technology and hands-on experience as a Developer and Data Analyst intern at the City of Johannesburg, I specialize in web app development and data analysis. I bring forth a balance of technical and soft skills, aiming to drive success in tech-driven projects
